VISHWA VIDYALAYA, BHOPAL (M.P.)
MASTER OF PLANNING (URBAN AND
REGIONAL PLANNING)**

SEMESTER – III

RAJIV GANDHI PROUDYOGIKI VISHWA VIDYALAYA, BHOPAL (M.P.) MASTER OF PLANNING (URBAN AND REGIONAL PLANNING)

SEMESTER – III

URP-211, RESEARCH METHODOLOGY

OBJECTIVE

- The purpose of Research methodology is to introduce to students the research methods and to develop competencies for critically examining topics of their interest and presenting them.
- To initiate the planning thesis by enabling students to identify a topic and then develop a proposal and methodology in detail besides providing them with the required theoretical inputs on the syllabus contents.

CONTENT

- **Unit-1 Introducing Research**

What is research? types of research, basics of academic and applied research; Differential approaches to research; Research philosophies – positivist and phenomenological philosophies. Introduction to elements of research: epistemology, theoretical perspective, methods, methodology; Justification of choice and use of methods and methodology; Paradigms in research.

- **Unit-2 Developing Thesis**

Research methodology: Quantitative – surveys, experimental, longitudinal, cross-sectional studies; Qualitative – case studies, action research, ethnography, participative enquiry, grounded theory. Central development – Developing contextual background; Research design; Identification of research problem; Research questions; Formulation of hypothesis; Writing aims, objectives, scope and limitations; Review of relevant literature; Identification of suitable research methods/ techniques/ instruments; Data collection – questionnaires, sampling techniques, observation, interviews; Analysis – qualitative and quantitative analysis, data synthesis; Research outcome – research findings.

- **Unit-3 Research Ethics**

Prior permission and intimation, conduct of interview, asking right question, confidentiality, elimination of bias and suspicion; Roles and social responsibilities of the researcher; Time management in research.

- **Unit-4 Field Work Plan**

Survey format preparation, study area identification and map preparation; Work plan schedule.

- **Unit-5 Research Communication**

Research vocabulary, Reading – notes taking, material organization, indexing; Technical writing – content synthesising, paraphrasing, citation and referencing; Academic writing – research proposal/ synopsis, abstract writing, report writing and mapping; Presentation: effective oral communication – content structuring, voice modulation, body language, audio-visual aids, handouts.

COURSE OUTCOMES

Upon the completion of this course, the students would be able:

- Comprehend research fundamentals, including types, approaches, and philosophies.
- Develop critical thinking skills to justify methodological choices in research.
- Initiate thesis planning by identifying research problems and formulating hypotheses.
- Adhere to ethical principles in research and recognize social responsibilities.
- Plan and execute fieldwork effectively, alongside proficiency in research communication.

RAJIV GANDHI PROUDYOGIKI VISHWA VIDYALAYA, BHOPAL (M.P.) MASTER OF PLANNING (URBAN AND REGIONAL PLANNING)

SEMESTER – III

URP-212, PLANNING FOR REGIONS

OBJECTIVE

- To provide students with knowledge on typology of regions, its inter and intra linkages with other levels, paradigm shift in the definition and scale of regions, regional analysis, and case studies.

CONTENT

- **Unit-1 Concepts and Typology of Regions**
Basic Concepts in Regions, Defining a region: fluidity and purposiveness, Typology of Regions: Resource Regions, Mega, Macro, Meso, and Micro Regions. Delineation of Regions (Regionalisation) Rural Settlement Analysis: Types, activity, environment and economic interface in rural habitat, technology in rural settlement.
- **Unit-2 Regional Dynamics**
Growth of Mega and Metro Regions: Scale, Complexity and its impact on national and international scenario, convergence and divergence. Regional Economy, competitiveness among regions, backward and leading regions in development. Special Regions: SEZ, Agro Regions, Ecological regions, etc.; Regional Disparity Analysis (through factor analysis); Regional Interdependence Analysis (through Input-Output model).
- **Unit-3 Regions in India and its planning**
Resource Regions; Corridors as regions; National, Sub-National and State as a region; Macro, Meso and Micro regions in India. Case Studies from India: NCR and Delhi Mega Region, Mumbai Mega Region, Kolkata Metro Region, Chennai Metro Region, and other Metro Regions in India. Western & Eastern Ghats, North Eastern Region, Coastal Regions, and River Valley Regions. Corridors: Golden Quadrilateral, Delhi-Mumbai, Chennai-Bangalore Industrial Corridor, North-South and East-West Corridor Regions; Core, Fringe and Periphery in a Region and its planning. Tools and Techniques available for planning regions in India.
Role of 73 and 74 CAA in regional plan preparation and implementation.
- **Unit-4 Future Regions**
Introduction to Futures perspectives and methods, Technological advancement and emerging future regions, Rapid Economic changes and future engines of growth, Regional Demographics including regional migration pattern, Concept of Ecological Footprint, Introduction to Ecological Economies, Sustainability Concepts and Practices, Climate Change, Globalisation and emergence of seamless regions, Policy Changes and its impact on future regions.

COURSE OUTCOMES

- Students are expected to obtain the skills in understanding a region, its dynamics, and planning complexities.

RAJIV GANDHI PROUDYOGIKI VISHWA VIDYALAYA, BHOPAL (M.P.) MASTER OF PLANNING (URBAN AND REGIONAL PLANNING)

SEMESTER – III

URP-213, URBAN AND REGIONAL GOVERNANCE

OBJECTIVE

- Governance plays a crucial role in framing planning policies and their effective implementation. Therefore, the primary objective of the course on Urban and Regional Governance is to introduce to the students how cities and regions in India are governed with a particular focus on land and the built environment.

CONTENT

- **Unit 1: Evolution of Urban and Regional Governance**
Comprehending governance; History of governance of urban and regional after 1947; Organizations involved in planning, development and management of urban and rural areas; Present status of urban and regional governance in India.
- **Unit 2: Devolution of Local Government**
Need for decentralization and devolution of powers from state governments to local government; District Planning Committees and Metropolitan Planning Committees; Current position of implementation of 73rd and 74th amendment acts.
- **Unit 3: Coproduction: Role of the Third Sector**
Shift from government to governance; Context of governance for greater involvement of the private sector; Ideas of good governance; Public private partnerships; Role of global players such as the World Bank, IMF, Asian Development Bank, the private sector, INGOs, NGOs, CBOs.
- **Unit 4: Land Administration and Management**
Models of land assembly in India - Bulk land acquisition, land reconstitution, etc.; Land administration and management; Understanding maps of land records; Methods of keeping land records in urban and rural areas.

COURSE OUTCOMES

Upon the completion of this course, the students would be able:

- To explain the evolution of the idea of governance.
- To analyse the role of the third sector, and to develop knowledge of constitutional amendments as they impact urban and regional governance.
- To demonstrate knowledge about the basics of land administration and management.

RAJIV GANDHI PROUDYOGIKI VISHWA VIDYALAYA, BHOPAL (M.P.) MASTER OF PLANNING (URBAN AND REGIONAL PLANNING)

SEMESTER – III

URP-214, POVERTY AND DEVELOPMENT

OBJECTIVE

- To understand the multidimensional aspects of poverty and its implications for urban and regional planning.
- To critically analyse various theories and models of development and their relevance to poverty alleviation strategies.
- To develop practical skills in designing and implementing inclusive planning policies and programs aimed at reducing poverty and promoting sustainable development.

COURSE CONTENT

- **Unit-1 Introduction to Poverty and Development**
Definitions and concepts of poverty, Dimensions of poverty: economic, social, and environmental. Theories of development and their implications for poverty reduction.
- **Module 1: Understanding Poverty**
Definition, concept of poverty, new definitions of poverty and its likely impact: relative poverty, absolute poverty, over all poverty, extreme poverty, physical poverty, income poverty, rural and urban poverty; poverty data base in India, data sources used for estimating poverty in India (household surveys and household consumption surveys); Globalization of poverty.
- **Module 2: Measures of Poverty**
Evolution of poverty line, consumption expenditure data: per capita consumer expenditure, distribution of expenditure; source of Data: National Sample Survey (NSS), National Accounts Statistics, identification of poor; how identification is done in India, food and land as a substitute, slum centric views and other methods. Approaches: livelihood approach, consumption-based approaches, etc.
- **Module 3: Indicators of Poverty**
Methodology: Poverty Lines, Rural and urban poverty lines, national poverty lines, poverty ratio, sub-national indicators: MDG indicators, income and non-income indicators (Education and health, etc); Quality of life indicators, empowerment indicators, gender indicators, and human development indicators.
- **Module 4: Rural and Urban Poverty**
Over view: incidence and dynamics of rural poverty: causes of rural poverty: dimensions of rural poverty, estimates of rural poverty in India, issues related to rural poverty; reviews of development strategies of past decade, ways to overcome the risk and reducing their vulnerability to climate change – double effect of poverty and vulnerability to risks; Spatial targeting of poverty; Government programmes; Multi-dimensional aspects of poverty, urban poverty matrix, vulnerability and asset ownership, Informal sector and poverty, role of National Commission for enterprises in the organized sector (NCEUS), Programmes to address the poverty issues: policy based (tenure regularization), sector based (slum up gradation, access to housing), finance based (Micro finance, compulsory municipal fund allocation); Monitoring and Evaluation of anti-poverty programmes. Best Practices in poverty alleviation across the global.

COURSE OUTCOMES

Upon the completion of this course, the students would be able:

- Develop a comprehensive understanding of the multidimensional nature of poverty and its relevance to urban and regional planning practices.
- Critically evaluate theories and models of development to design effective poverty alleviation strategies within urban and regional contexts.
- Acquire practical skills in designing inclusive planning policies and programs aimed at reducing poverty and promoting sustainable development.
- Demonstrate the ability to analyse and assess the impact of urbanization and rural-urban linkages on poverty dynamics.
- Apply theoretical knowledge and analytical skills to formulate innovative planning solutions that address poverty challenges and contribute to sustainable urban and regional development.

RAJIV GANDHI PROUDYOGIKI VISHWA VIDYALAYA, BHOPAL (M.P.) MASTER OF PLANNING (URBAN AND REGIONAL PLANNING)

SEMESTER – III

URP-215, SEMINAR

OBJECTIVE

- Initiate the process of literature review related to frontiers of research in U in spatial context.
- To explore various methods of conducting research.
- Acquire report writing skills with proper research.

CONTENTS

- **Unit-1 Identification of a Research Domain**
Identification of topic of interest having relevance to planning profession; Preparation of alternative seminar proposal abstracts.
- **Unit-2 Literature Review**
Review of books and journal articles and compilation of the same to establish the body of work existing in the selected area of work; Documentation of multiple view points and colloquial arguments.
- **Unit-3 Identification of Challenges and Opportunities**
Establish different arguments and outcome of other research works in the selected area of work; Identify the research gaps or taking a new stance resulting in a literature review document/ position paper.
- **Unit-4 Research Design**
Defining and formulating the research problem, Framing an appropriate Research Design, Collection of data and opinions of stakeholders on the selected topic (if not a descriptive design)
- **Unit-5 Report writing and Poster Presentation**
Report writing in prescribed format with referencing and appropriate maps, charts, tables and figures etc in the form of a working paper / position paper / review paper on the selected topic. Preparation of a poster for presentation (similar as a conference poster)

COURSE OUTCOMES

Upon the completion, students would be able to:

- Seek out literature on a research topic from various online and printed academic/ research databases.
- Engage in logical dialogues and discourses based on past research.
- Articulate responses to various authors, books and papers and move from argument in a succinct and logical way.
- Write and present a seminar paper that describes literature review, research design adopted and highlight new arguments/ original minor research.

RAJIV GANDHI PROUDYOGIKI VISHWA VIDYALAYA, BHOPAL (M.P.) MASTER OF PLANNING (URBAN AND REGIONAL PLANNING)

SEMESTER – III

URP-216, REGIONAL PLANNING STUDIO

OBJECTIVE

- The primary objective of regional planning studio is to learn about approaches and methodologies for the preparation of a regional, sub-regional, district or block development plan comprising of few urban and several rural settlements.

CONTENT

- Central to regional planning are two prominent ideas of integrated and balanced regional development. A regional plan is a spatial plan rather than sectoral plan and regional planning is directed at development efforts towards optimal utilization of region's resources benefitting people and physical environments to the maximum extent possible.
- Economic growth may be an overriding objective of regional planning, but equally important are environmental concerns and quality of life issues in a region. All economic, environmental and social issues are intertwined and of equal significance. There are many forces that shape any region or sub-region extending around the core and the stirring growth and developments, directly or indirectly linked to political and economic developments taking place in the regions or sub-regions.
- Developments in the external and internal environment can have a positive or negative impact on the region, thus, priority should be given to policies and strategies that ensure a region's integrated and sustainable development.

COURSE OUTCOMES

Upon the completion of this course, the students would be able:

- To demonstrate understanding of the concept of region, types of regions, forms of regional plans, and their significance.
- To develop knowledge about various approaches, techniques, and technologies involved in the preparation of a regional plan using regional planning spatial approach.
- To develop abilities and skills to prepare a regional plan for a selected region by identifying the key drivers of development and their planning implications on one another, and to demonstrate comprehension of various approaches, techniques and technologies learned during the semester.
